DUN'S REVIEW

Gives a Detailed Resume of the Business of the Week.

By Associated Press.

New York, Nov. 30.—R. G. Dun & Co.'s weekly review of trade says: The commercial failures in November were 550, being \$12,300,316 in amount of liabilities, against 732 in October, \$9,072,791, and 886 in November last year, when the liabilities were only \$8,046,848.

Manufacturers' defaults were 193 in number and \$3,883,165 in amount, the bulk of mortality occurring in trading concerns, of which 617 failed for \$7,506,358. There were 40 other commercial failures, with liabilities of \$30,793. Four banking and financial companies defaulted for \$823,000.

At a first glance the November statement appears to be very unsatisfactory, but it must be remembered that a few heavy failures in wool and other textile industries account for a large share of the reported liabilities. Aside from this one branch of trade, which has naturally suffered heavily from tardy approach of winter, figures show business to be on a good foundation. Holiday retail trade starts off well.

A larger demand for goods for current consumption is the report. The dry goods trade shows business expanding, but irregularly and slowly. Cotton goods show the best results. There is little curtailment of the output of cotton goods, but some mills which usually run on export trade are diverting their machinery to light weights for home use.

Railroad earnings for November to date show one per cent gain over 1909, and 11.1 per cent over 1898.

As yet the advance in cotton goods is not at all in proportion to the gain in raw material.

Relatively the best trade reports come from the south and southwest, while the most backward are from the sections east, where unseasonable weather is complained of, and from sections of the spring wheat region which suffered most from a shortage in the yield. It is notable that a better situation in lumber has stimulated the trade in northern Minnesota.

The feature in the grain market this week was carrying to a successful conclusion the November corn corner in Chicago. Following a private settlement with shorts, at a basis of 50 cents a bushel, came a drop to 41 cents. At New York the influence of this corner was to advance prices slightly, owing largely to the deflection of supplies.

Wheat has been irregular, but with undertone bearish, because of large supplies and discouraged speculative liquidation. Wheat, including flour shipments for the week, 2,497,880 bushels, against 3,827,296 last week and 3,699,400 for the corresponding week of 1899. From July 1 to date, this season, the wheat exports amount to 77,729,267 bushels, against 89,167,942 last season, and 96,009,042 in 1898-99.

Corn exports for the week amount to 4,801,030, against 5,235,568 bushels last week, 4,441,514 for the week of a year ago and 4,723,988 in 1898. From July 1 to date, this season, corn exports are 74,681,591 bushels, against 96,618,002 last season and 65,546,750 in 1898-9.

THE ABBOTT

Was the Center of Attraction in the New York Horse Sales.

By Associated Press.

New York, Nov. 30.—There was a large crowd in Madison Square Garden today, the attraction being the announcement that The Abbott, holder of the world's trotting record, 2:03 3/4, was to go in the auction sales. The Abbott is a bay gelding foaled in 1893, by Chimes-Nettle King, and sold by Village Farm of C. J. and Harry Hamlin, at East Aurora, N. Y., to J. J. Scannell, of New York, for \$26,500. Bidding for other horses was slow. The best prices were: Chestnut Colt, 1898, by Onward-Belle Harold, E. W. Valentine, Yonkers, N. Y., \$1,000. Brown mare, by Besamer-Jessie R., Dr. H. D. Gill, New York, \$2,200. Bidding on The Abbott was short. Ed. Tipton, agent for T. W. Lawson, of Boston, made the first bid of \$26,000. Fire Commissioner John Scannell, of New York, raised him \$500 and the horse was sold to Scannell for \$26,500.

The War Revenue.

By Associated Press.

Washington, D. C., Nov. 30.—Chairman Payne, of the Ways and Means Committee, issued notices today recalling the previous notice of a full committee meeting for tomorrow to consider the bill for a reduction of the war revenue. Stated unofficially, the reason of the committee for not meeting was because further information was desired as to the views of the Republican members generally in reference to this bill. Such features of the measure, prepared by the Republican members as become known, caused considerable opposition; it is probable that a conference or caucus of Republican members will be held before a final decision is reached.
